

R E M A R K S

Claim 10 currently remains in the application. Claims 1-9 have been canceled, and no claims are herein amended.

In said Third Office Action, the Examiner objected to the drawings for not showing "arrow RE" referred to in the specification and required that the drawings be amended. It has been found, however, that the error was not in the drawings but in the specification. Thus, the relevant portion of the specification (page 6, line 22) is herein corrected, the drawings being left as filed originally. The Examiner is requested to agree that it was indeed an editorial error and that the amendment is enterable. Upon entry of this amendment, it is believed that the application is indeed in condition for allowance.

Respectfully submitted,

Keiichi Nishimura
